

Proof of Vaccination Required

As of September 22, 2021, Ontarians will need to be fully vaccinated (two doses plus 14 days) and provide their proof of vaccination along with photo ID to access certain public settings and facilities. This approach focuses on higher-risk indoor public setting where face coverings cannot always be worn and included:

- Restaurants and bars (excluding outdoor patios, as well as delivery and takeout);
- Nightclubs (including outdoor areas of the establishment);
- Meeting and event spaces, such as banquet halls and conference/convention centres;
- Facilities used for sports and fitness activities and personal fitness training, such as gyms, fitness and recreational facilities with the exception of youth recreational sport;
- Sporting events;
- Casinos, bingo halls and gaming establishments;
- Concerts, music festivals, theatres and cinemas;
- Strip clubs, bathhouses and sex clubs;
- Racing venues (e.g. horse racing)

How Ontario's vaccine passport plan will work:

- As of Sept. 22, you'll need proof of vaccination and photo ID to get into high risk, non-essential places like bars, restaurants, gyms, sporting events and festivals.
- This can be a printed version of the PDF available online, or you can show that PDF from your phone.
- On Oct. 22, the province will roll out an app, which can scan personalized QR codes of vaccine certificates.

CHILDREN UNDER THE AGE OF 12 ARE EXPEMPT
